1️⃣ Dashboard (After Login)

This is the first page to build after login.

Dashboard contents:

- Total orders
- Pending orders
- Completed orders
- Today's pickups/deliveries
- Quick links (Create Order, View Orders, Customers)

✔️ Helps you test sessions, routing, and user data quickly.

2️⃣ User Profile / Account Settings

Small but important.

Include:

- View/Update profile
- Change password
- Logout
- Upload profile picture (optional)

3️⃣ Place Order Page (Customer Side)

This is the main workflow of your app.

Page should have:

- Select service (Wash / Iron / Dry Clean / Combo)
- Select clothes category (Shirt, Pant, Saree...)
- Quantity input
- Price auto-calculation
- Pickup date & time
- Address selection or add new address
- Place Order button

↓

4️⃣ Order Summary / Order Confirmation Page

After placing the order, show:

- Order ID
- Items list
- Total amount
- Pickup timing
- Status: "Order Placed"

5 Orders List Page

Show all user orders.

Columns:

- Order ID
- Date
- Items
- Total
- Status (Placed / Picked / In-Process / Completed / Delivered)
- View details

6 Admin Panel (If you have admin side)

Admins need more pages:

Admin Dashboard

- Total orders
- Total customers
- Today's pickups
- Today's deliveries
- Revenue (optional)

Admin Pages

- Manage Orders
- Update Order Status
- Manage Customers
- Manage Pricing
- Manage Services
- Delivery boy assignment (optional)

7️⃣ Order Status Update Flow

Order statuses you should use:

1. **Order Placed**
2. **Pickup Assigned**
3. **Picked Up**
4. **In Washing**
5. **Ironing**
6. **Ready**
7. **Out for Delivery**
8. **Delivered**

Each update is reflected to customer.

8️⃣ Payment Integration (Optional)

Add after orders flow is complete.

- Add Razorpay / Stripe
- Payment history page
- Download invoice

9️⃣ Notification System (Optional)

- SMS / Email when order status changes
- WhatsApp notification

🔟 Help / Contact Us Page

Static page with:

- Address
- Phone
- Email
- Google map (optional)

⭐ Final Page Flow (Simple List for You)
